## EDUCATION

---

**Universidad Nacional de San Agustín** — 3.5 GPA

04/2021 – 12/2025

B.S. in Computer Science

- *Selected Coursework:* Algorithms and Complexity, Operating Systems, Software Construction

## WORK EXPERIENCE

---

**Dekoding | Fullstack Developer** ([dekoding.pe](https://dekoding.pe))

08/2024 – now

- Led backend development for an MVP of medical records with multi-tenancy architecture in Laravel.
- Optimized legacy applications, improving performance by 40%.
- Developed scalable enterprise applications for U.S. clients, maintaining high-quality standards.

**Dekoding | Trainee** ([dekoding.pe](https://dekoding.pe))

06/2024 – 08/2024

- Developed full-stack projects with Laravel, React, and Inertia.js.
- Implemented agile development practices and participated in Scrum ceremonies.
- Collaborated on creating reusable components and RESTful APIs.

**SOCIMEP | Fullstack Application** ([socimep.org](https://socimep.org))

01/2024 – 05/2024

- Implemented an academic management and e-commerce system, improving efficiency by 60%.
- Developed an OAuth 2.0 and JWT authentication system for +1000 users.
- Led a team of 3 developers using agile methodologies.

## PROJECTS

---

**Art Sessions | Fullstack Application - PWA** ([art-sessions.vercel.app](https://art-sessions.vercel.app))

08/2023 – 11/2023

- Developed and maintained features for Art Sessions, a web platform for learning and creating art.
- Proficient in various programming languages and technologies, including Next.js, Tailwind, and PostgreSQL.
- Optimized the codebase to enhance performance and scalability.

**Speech Journal | Fullstack Application - PWA** ([speech-journal.netlify.app](https://speech-journal.netlify.app))

01/2023 – 06/2023

- Fullstack SaaS MVP enabling users to record voice journal sessions.
- **Frontend:** Built a voice-journal app using React, Scss, and the WebSpeechAPI.
- **Backend:** Utilized NestJS and MongoDB REST with Google OAuth for user authentication.

**Readera-book notes & quotes | OSS Tool** ([readera-cites.netlify.app](https://readera-cites.netlify.app))

02/2022 – 05/2023

- OSS React app to help Readera users visualize book quotes and notes.
- Built a JSON reader with filtering and search capabilities using React.
- Published as an ongoing development project with monthly updates.

## SKILLS

---

- **Frontend** TypeScript, JavaScript, React, Redux, Next.js, HTML, CSS, Tailwind
- **Backend** Node, Python, PostgreSQL, MySQL, SQLite, Java, Rust, Go, C++, REST APIs
- **DevOps** Linux, CI/CD, Git, GitHub Actions, Docker, Bash, Agile, AWS, GCP
